

Voyager Therapeutics to Present at Cowen and Company 35th Annual Health Care Conference

February 20, 2015 3:07 PM ET

Cambridge, Mass., February 20, 2015 – [Voyager Therapeutics](#), a gene therapy company developing life-changing treatments for fatal and debilitating diseases of the central nervous system (CNS), today announced that Steven Paul, M.D., president and CEO, will present at the Cowen and Company 35th Annual Health Care Conference on Monday, March 2 at 1:30 p.m. at the Boston Marriott Copley Place in Boston.

About Voyager Therapeutics

Voyager Therapeutics is a gene therapy company developing life-changing treatments for fatal and debilitating diseases of the central nervous system (CNS). Voyager is committed to advancing the field of AAV (adeno-associated virus) gene therapy through innovation and investment in vector optimization and engineering, dosing and delivery techniques, as well as process development and production. The company's pipeline is focused on CNS diseases in dire need of effective new therapies, including Parkinson's disease, a monogenic form of amyotrophic lateral sclerosis (ALS), Friedreich's ataxia and Huntington's disease. Founded by scientific and clinical leaders in the fields of AAV gene therapy, expressed RNA interference and neuroscience, Voyager Therapeutics was launched in 2014 with funding from leading life sciences investor Third Rock Ventures and is headquartered in Cambridge, Mass.
